

Human nature dictates that Creditors will often act in a way that benefits them rather than the creditors collectively.

The Insolvency Practitioner's duty is to ensure all creditors are treated fairly.

Lenders take Debentures over assets including Intangible Assets which puts them at the front of the queue. At the point of insolvency the Debenture holders balance is to be discharged from any disposal ahead of other creditors.

Amco works with Insolvency Professionals creating a market to sell assets in distress and achieve maximum value.

Amco would use a variety of tools to bring assets to market including Direct Mail, Micro Websites, Auctions, Tender Sale and Press Releases.

Amco has extensive contacts from its twenty years of Valuations and Disposals. Often we are able to attract offers from our contact list of buyers very quickly.

We manage these campaigns and the resulting sales from start to finish dealing with buyers, visits and negotiating a sale. We can also ensure successful removal following receipt of payment as required.

There are very few assets that Amco have not dealt with over the last twenty years which enables us to make progress quickly.

Michael Charles (Managing Director) is available to talk with you on 08452 300700.
